## KNOW THE RULES

### California Code of Regulations

(Title 3. Food and Agriculture)

Division 6. Pesticides and Pest Control Operations

#### **6614. Protection of Persons, Animals, and Property.**

(a) An applicator prior to and while applying a pesticide shall evaluate the equipment to be used, meteorological conditions, the property to be treated, and surrounding properties to determine the likelihood of harm or damage.

(b) Notwithstanding that substantial drift would be prevented, no pesticide application shall be made or continued when:

(1) There is a reasonable possibility of contamination of the bodies or clothing of persons not involved in the application process;

(2) There is a reasonable possibility of damage to nontarget crops, animals, or other public or private property; or

(3) There is a reasonable possibility of contamination of nontarget public or private property, including the creation of a health hazard, preventing normal use of such property. In determining a health hazard, the amount and toxicity of the pesticide, the type and uses of the property and related factors shall be considered.

#### **6616. Consent to Apply.**

No person shall directly discharge a pesticide onto a property without the consent of the owner or operator of the property.
